PRENATAL DIAGNOSIS, VOL. 1, 287–288 (1981)

KEY WORD INDEX

Action limits, 11
AF cells, 269
Albinism, 85
Alphafetoprotein, 3, 7, 11, 91, 281
Alpha-iduronidase deficiency, 121
Amniocentesis, 51, 153, 173, 249
Amniotic catecholamine metabolites, 157
Amniotic fluid, 3, 11, 75, 125, 259
Amniotic fluid leakage, 277
Amniotic GAG, 121
Anencephaly, 227, 259
Apolipoproteins (A-I, A-II, B, E), 125

Blastocyst transplantation, 103

Cell types, 235
Cholinesterase, 7
Chromosome 12, 35
Cloverleaf skull, 141
Complement C4 deficiency, 183
Congenital adrenal hyperplasia (21-hydroxylase deficiency), 25, 197
Congenital enzymopenic methaemoglobinaemia, 17
Congenital heart disease, 131
Counselling, 81
Cultured amniotic fluid cells, 235
Curly-tail mice, 103
^{64}Cu tissue culture studies, 107
Cystic hygroma, 281
Cytochrome b_5 reductase, 17

Double encephalocele, 161
Down syndrome, 249
D2-protein, 3

Echocardiography, 131
Electron microscopy, 85
Elevated amniotic AFP, 161

FACS, 61
Fetal ascites, 131
Fetal blood, 125
Fetal blood sampling, 43
Fetal cells, 61
Fetal cystic masses, 217
Fetal hair, 85
Fetal HLA typing, 183
Fetal Marfan, 241
Fetal neural tube defects, 157
Fetal skin, 85
Fetal urethal atresia, 223
Fetoscopy, 43, 125

Gene dosage, 209
Genetic amniocentesis, 277
Genetic counselling, 51
Glial and neuronal cells, 259
Glutamic-oxaloacetic transaminase (GOT-1), 209

Haemoglobinopathies, 43
Haemophilia, 43
HLA, 61
HLA testing, 25, 197
Human amniotic fluid, 269
Human chorionic gonadotropin (hCG), 269
Hurler's syndrome, 121
21-hydroxylase deficiency, 183
17-hydroxyprogesterone, 197

Indirect immunofluorescence, 259
Inversion, 81

α-Ketoisocaproate decarboxylation, 235
Kleeblattschädel, 141

Maple syrup urine disease, 235
Marfan, fetus, 241
Maternal cell contamination, 121
Meckel's syndrome, 161
Menkes X-linked disease, 107
Microtechnique, 235

Neural tube defects, 3, 7, 11, 51, 91, 103, 227

Obstetricians, 249
21-OH deficiency, 25

Paracentric, 35, 81
Paternity testing, 183
Patient attitudes, 249
Pericentric inversion, 35
Pigmentation, 85
Placental copper, 107
Polycystic kidney disease, 75
Polycystic kidneys, 161
Possible umbilical cord occlusion, 217
Prenatal, 81
Prenatal diagnosis, 7, 17, 25, 43, 61, 85, 91, 107, 141, 147, 173, 197, 235, 249
Psychosocial aspects, 153

Rapidly-adhering cells, 259
Reproductive behaviour, 51
Risk of amniocentesis, 173

Sodium butyrate, 269
Synaptosomal membrane protein, 3

Testosterone (Amniotic fluid), 197
Trehalase, 75
Trisomy 10q, 209
Trisomy 18, 223, 227,
Trisomy 20, 147
True foetal mosaicism, 147
Turner's syndrome, 281
Twins, 43

Ultrasound diagnosis, 217
Ultrasound Marfan, 241

Y chromatin, 61

PRENATAL DIAGNOSIS
(*Prenat. diagn.*)

CONTENTS

Volume 1, Special and Issue Nos. 1–4

Special Issue, December 1980
(Report of an International Workshop)

	Editorial *M. A. Ferguson-Smith*	1
	Introduction *J. L. Hamerton*	3
Section 1	Genetic Amniocentesis *N. E. Simpson* et al.	5
Section 2	Chromosome Disease *J. L. Hamerton* et al.	11
Section 3	Prenatal Screening and Diagnosis of Open Neural Tube Defects *A. Milunsky* et al.	23

Issue No. 1, January–March 1981

Editorial 1

The Synaptic Membrane D2-Protein in Amniotic Fluid from Pregnancies with Fetal Neural Tube Defects *O. S. Jørgensen and B. Nørgaard-Pedersen* 3

Alphafetoprotein, Cholinesterases and Rapidly Adhering Cells in the Prenatal Diagnosis of Neural Tube Defects *M. J. Seller, K. J. Cole and B. L. Merritt* 7

Indexed or abstracted by 'Current Contents', 'Science Citation Index' and other leading Indexing/Abstracting Services.

The Use of Amniotic Fluid AFP Action Limits in Diagnosing Open Neural Tube Defects *D. J. H. Brock* 11

Prenatal Diagnosis of Congenital Enzymopenic Methaemoglobinaemia with Mental Retardation due to Generalized Cytochrome b_5 Reductase Deficiency: First Report of Two Cases *C. Junien, A. Leroux, D. Lostanlen, A. Reghis, J. Boué, H. Nicolas, A. Boué and J. C. Kaplan* . 17

Prenatal Diagnosis of Congenital Adrenal Hyperplasia (21-OH Deficiency Type) by HLA Typing *P. Couillin, J. Boué, H. Nicolas, C. Cheruy and A. Boué* 25

Peri- and Paracentric Inversions in Chromosome 12: Prenatal Diagnosis and Family Study *H. Poulsen, M. Mikkelsen and G. Holmgren* . 35

Sampling Pure Fetal Blood in Twin Pregnancies by Fetoscopy using a Single Uterine Puncture *C. H. Rodeck and D. Wass* 43

The Effect of the Introduction of Prenatal Diagnosis on the Reproductive History of Women at Increased Risk from Neural Tube Defects *K. M. Laurence and J. Morris* 51

Detection and Isolation of Fetal Cells from Maternal Blood using the Fluorescence-activated Cell Sorter (FACS) *G. M. Iverson, D. W. Bianchi, H. M. Cann and L. A. Herzenberg* 61

SHORT COMMUNICATIONS

Prenatal Detection of the Autosomal Recessive Type of Polycystic Kidney Disease by Trehalase Assay in Amniotic Fluid *P. R. Morin, M. Potier, L. Dallaire, S. B. Melançon and J. Boisvert* . . . 75

A Case of a Paracentric Inversion inv(7) (q11q22). Prenatal Detection and Counselling *M. A. C. Ridler and S. D. Sutton* . . . 81

Issue No. 2, April–June 1981

Can Oculocutaneous Albinism be Diagnosed Prenatally? *M. E. Haynes and E. Robertson* 85

Four Years' Experience of Material Alpha-Fetoprotein Screening and its Effect on the Pattern of Antenatal Care *R. H. T. Ward, D. V. I. Fairweather, G. A. Whyley, I. M. Shirley and M. Lucas* 91

Maternal Environment and the Expression of Murine Neural Tube Defects *M. J. Seller, S. E. Beck, M. Adinolfi and P. E. Polani* . . 103

Menkes X-linked Disease: Prenatal Diagnosis of Hemizygous Males and Heterozygous Females *N. Horn* 107

Correct Prenatal Diagnosis of a Hurler Fetus where Amniotic Fluid Cell Cultures were of Maternal Origin *J. Mossman, A. D. Patrick, A. H. Fensom, L. R. Tansley, P. F. Benson, V. M. Der Kaloustian and G. Dudin* 121

Apolipoproteins in Human Fetal Blood and Amniotic Fluid in Midtrimester Pregnancy *M. Fainaru, R. Deckelbaum and M. S. Golbus* . 125

Normal Fetal Cardiac Anatomy—A Basis for the Echocardiographic Detection of Abnormalities *L. D. Allan, M. Tynan, S. Campbell and R. H. Anderson* 131

SHORT COMMUNICATIONS

In Utero Diagnosis of Kleeblattschädel (Cloverleaf Skull) *A. F. Salvo* 141

Trisomy 20 Mosaicism in a Foetus *A. McDermott, A. Gardner and B. Ray* 147

Communication Openness with Friends, Relatives and Children of Couples having Amniocentesis *R. S. Ashery* 153

Catecholamine Metabolites in Amniotic Fluid from Fetuses with Neural Defects *H. Lagercrantz and B. Sjöquist* 157

Issue No. 3, July–September 1981

Prenatal Morphology in Meckel's Syndrome *H. Rehder and F. Labbé* . 161

Risk of Amniocentesis and Laboratory Findings in a Series of 1500 Prenatal Diagnoses *M. Verjaal, N. J. Leschot and P. E. Treffers* . . 173

Technical and Theoretical Considerations in the HLA Typing of Amniotic Fluid Cells for Prenatal Diagnosis and Paternity Testing *M. S. Pollack, S. D. Heagney, D. Braun, Jr. and G. J. O'Neill* 183

Prenatal Diagnosis of Congenital Adrenal Hyperplasia (CAH) due to 21-Hydroxylase Deficiency by Steroid Analysis in the Amniotic Fluid of Mid-pregnancy; Comparison with HLA Typing in 17 Pregnancies at Risk for CAH *M. G. Forest, H. Bétuel, P. Couillin and A. Boué* in collaboration with *M. David, D. Floret, R. Francois, P. Guibaud, H. Plauchu and R. Rappaport* 197

The Possibility of Prenatal Diagnosis by Gene Dosage: Confirmation of Duplication 10q24→qtr from GOT-1 Activity in Fetal Erythrocytes *B. Dallapiccola, A. Pachì, G. Ferranti, G. Micara, M. Magnani and M. Dachà* 209

SHORT COMMUNICATIONS

Ultrasound Demonstration of Masses in a 15 Week Fetus: Hydrops in a Fetus with Umbilical Cord Occlusion *L. Shenker, W. Anderson and C. Anderson* 217

Ultrasonic Detection of an Abnormal Mass in a Fetus later shown to have Trisomy 18 *R. H. Heller, J. E. Adams, R. L. Hirschfeld and A. J. Tapper* 223

Neural Tube Defects in Trisomy 18 *R. Nisani, J. Chemke, H. Cohen-Ankori and F. Nissim* 227

LETTER TO THE EDITOR 233

Issue No, 4. October–December 1981

Maple Syrup Urine Disease: α-Ketoisocaproate Decarboxylation Activity in Different Types of Cultured Amniotic Fluid Cells *U. Wendel, G. Gamm and U. Claussen* 235

Fetal Marfan Syndrome: Prenatal Ultrasound Diagnosis with Pathological Confirmation of Skeletal and Aortic Lesions *M. Koenigsberg, S. Factor, S. Cho, A. Herskowitz, H. Nitowsky and R. Morecki* 241

Prenatal Diagnosis for the Detection of Down Syndrome: Why are so Few Eligible Women Tested? *A. Lippman-Hand and M. Piper* . . . 249

Glial and Neuronal Cells in Amniotic Fluid of Anencephalic Pregnancies *H. von Koskull, I. Virtanen, V.-P. Lehto, T. Vartio, D. Dahl and P. Aula* . 259

The Characterization of hCG Regulation in Cultured Human Amniotic Fluid Cells *C. H. Laundon, J. H. Priest and R. E. Priest* 269

SHORT COMMUNICATIONS

Normal Fetal Growth despite Persistent Amniotic Fluid Leakage after Genetic Amniocentesis *J. L. Simpson, M. L. Socol, S. Aladjem and S. Elias* 277

45,X Karyotype: May the Diagnosis be Suspected on Ultrasonic Examination in the Second Trimester of Pregnancy? *A. Tabor, J. Bang and J. Philip* 281
